I understand this agreement for service covers only those services provided by Elephant Head Volunteer Fire Department. Services provided by other organizations like, but not limited to Green Valley Fire District and Tubac Fire Department are not covered by this agreement. I understand that EHVFD does not provide medical transport and that medical transport companies will charge a separate fee for their services. I acknowledge that all EHVFD personnel are volunteers who usually hold full-time jobs and cannot always respond to an emergency. I understand that other agencies will respond when EHVFD volunteers are not available and may charge me a fee for their services. I understand that rural response times for any emergency, performed by any agency may be delayed due to availability of personnel, equipment and numerous other factors. I understand that EHVFD may not always have enough volunteers available for a particular incident and may call for and/or automatically arrange for assistance from other agencies—who may then charge for their services.
